

Amazon Dash Button

Amazon has always been known for their innovation product ideas and their effort to make shopping experience wonderful for their customer. Continuing with their legacy, Amazon now have come up with another innovation product idea called "Amazon Dash Button". A simple service that is currently available for Premium Members. Amazon has done a tie-up with 17 brands to launch this service to you. There are already about 254 eligible Dash Button Products on Amazon.

Amazon already has all the information about you and once the order for a particular product is given, Amazon ships the product to you and thus you never run out of anything at your home. This is really a very helpful and innovation step from Amazon in their customer service improvement and in the field of Ecommerce as such.
