

How to Change Top Form Mini Search Placeholder's Text in Magento 2?

We at [Envision Ecommerce](#) today would like to keep up our series of Magento 2 related blogs with this new solution related to structure for changing text in a Top mini search placeholder.

Go to file `form.mini.phtml` located at:
"magento2\app\code\Magento\Search\view\frontend\templates"
Go to line #32:- `placeholder="`

We are looking forward to share our knowledge that we are gaining in Magento 2 with the community out there. Feel free to reach us to discuss any issue that you get in Magento 2. We will certainly look to provide best possible solution.
